GET AN ENVIRONMENTALLY FRIENDLY GRILL

As a thank you to our customers, Thompson's Sanitary Service is giving away a Traeger grill May 7th, 2010! Simply go to our website at thompsonsantitaryservice.com and find the hidden Traeger logo and sign up to enter! The actual Traeger grill is on display at JC Market in Newport for those that want a sneak peak.

Did you know Traeger grills are an environmentally friendly choice? Traeger wood pellet grills use a natural biomass wood pellet fuel. No fossil fuels of any kind are used in the combustion process.

Traeger BBQ Pellets are made from 100% recycled hardwood sawdust. They are a leader in the reduction of wood waste as they are adding economic value to materials that were once considered "waste", creating new business, products, and jobs. This use of sawdust, previously burned or placed in landfills, results in significant economic, social, and environmental benefits. Check out traegergrills.com for more information! Thompson's Sanitary Service is a licensed dealer of Traeger Grills.

Give your old fridge/freezer the boot: RECYCLE it and get credit for your clunker

Central Lincoln PUD and Thompson's Sanitary Service have partnered to implement a residential refrigerator and freezer recycling program. If your refrigerator or freezer pre-dates 1992, it is possibly using three times as much electricity as one made after that time!

Power rates are expected to increase in coming years, so now is the time to think about a new refrigerator or freezer. According to the Central Lincoln PUD, as an example, refrigerators and freezers made before 1978 cost at least \$105.84 a year to operate. Those made since 1992 or newer cost just \$43.08 annually.

Here's how it works:

- You have a working refrigerator or freezer in your home that isn't an "Energy Star" rated appliance, and you want to get rid of it. The "energy hog" you want taken away must be 10 cubic feet or larger, which means appliances larger than "dorm fridges".
- Call the friendly authorized dispatchers at 1-866-265-7231. The waste hauler for your area, in this case,

Have a working fridge or freezer that's an energy hog? We'll haul it away for free and you'll get a \$30 credit through Central Lincoln PUD.

Thompson's Sanitary Service, will pick it up from you at no charge to you within two weeks, and recycle all materials that can be recycled from the old appliance.

- AND... You get a credit of \$30 on your Central Lincoln bill for each qualifying freezer or refrigerator that

you have taken away! A credit for your clunker.

As a TSS customer, you can also visit our website at thompsonsanitary.com and fill out our Refrigerator Pick-up Form under our "Services" tab. Once you submit that, we will contact you about taking away your fridge or freezer.

Just some of the trash collected during our SOLV Adopt-a-River cleanup of the Yaquina River.

Volunteer for the Yaquina River Clean-up

Join friends and neighbors for a day of good clean fun!

WHEN: Saturday, May 15th, 2010

WHERE: Meet at the Yaquina Bay Yacht Club, 750 Bay Boulevard, Newport

TIME: 9:00am-11:30 for Cleanup with BBQ to follow for all volunteers

WHY: You'll be making a difference in our local environment. Twice a year, we conduct this clean-up in partnership with SOLV and Georgia Pacific. Each time, volunteers pick up a large amount of trash that would otherwise be floating in our beautiful Yaquina River and endangering the health of our water system and the local wildlife.

CONTACT US: Call Lisa at 541-265-7249 for more information
