

Trash Talk

AUGUST 2018

It's 5:00pm and my trash hasn't been picked up! *Summer = traffic delays*

It's Summertime on the Coast! Many conjure up memories of bonfires on the beach, warm weather, building sandcastles, strolling the Bayfront; just to name a few.

We all know Newport is a vacation hotspot, which means **more people, more vehicles, and more waste!** All those factors can cause some serious delays to our regular routes.

In the Winter, we enjoy a ten-minute commute from one end of town to the other, but Summer adds traffic congestion and accidents. Many might not think about this aspect, but it's also a very busy time for the waste business. Construction is happening, people are working on their homes and yards, and additional tourist population can all add to the delay equation.

A call we get frequently is "Our trash is usually picked up at 10:00am and it's 1:00pm, how come they haven't picked it up yet?" We are happy customers enjoy our regular service, but we need your patience during the Summer. Sometimes our drivers

become aware of major traffic delays and change the route to accommodate what's happening on our highways and byways.

Street work or construction can also result in collection routes driven in a different order. Some construction is scheduled and some is a surprise to us and everyone. All these factors impact our schedule, most of which are out

of our control. We train our drivers to be efficient, careful, courteous, and follow the optimized route. ***In the Summer, please be patient, and hold off in calling our office just because we might be later than usual.*** Our drivers sometimes work from dawn to dusk, so please put your carts out early and leave them out late. Always let us know if your carts weren't emptied, but think before calling in the morning. Emailing info@thompsonsanitary.com is also a great way to let us know if you think your cart was missed. ***Thank your for your patience; we'll get your carts serviced!***

In the Know

Free Shred Day

Lincoln County Sheriff's office hosting free confidential document shred day Aug 11

Saturday, August 11, 2018, 10am-1pm, the Lincoln Co. Sheriff's office will be hosting a "Shred Day" at the Lincoln County Courthouse parking lot located at 225 West Olive Street, Newport. The event is being held in an effort to combat identity theft and financial fraud. Please bring your paper documents, files, notebooks canceled checks, or any other document that contains personal or sensitive information. They will also be accepting VHS tapes, backup tapes, CDs, and DVDs that contain personal or sensitive information. The shredding is 100% secure and will be conducted by an iSecure (TSS contracted shredding company) truck on site.

Short
on
Water?

We deliver bulk potable water to customers' holding tanks for household water consumption, or filling of pools, hot tubs, and ponds.

Our clean water is delivered from a City of Newport municipal water source and can deliver up to 1,000 gallons per truck-load.

Our trucks are prepared with 100 feet of hose and are equipped with pumps to transfer the water to your vessel. Email us at info@thompsonsantitary.com for an estimate.
